TP-150

DESCRIPTION

The TP-150 Peel Strength Analyzer is a lab-quality test instrument for measuring the peel force required to remove cover tape from carrier tape. IC manufacturers, back-end service providers and contract assemblers will find this analyzer to be an indispensable tool for monitoring tape seal quality per the EIA-481 standard.

The TP-150 can measure the peel strength over a range of 0-200 grams and can accommodate tape widths of 8-56 mm.
